Streets of Rage 3 has been a long time coming and with its hefty 24 meg you soon get to see just why this monster game is so big (and expensive!). It's packed with detailed colourful graphics and 38 tracks from Yuzo Koshiro(!) and a million digitised voice and FX samples.

The story sounds a little too familiar with you being told that a new syndicate is in town. You can team up with Dr Zed, Adam's brother Skate, Blaze or just go for it yourself as Axel. You have to discover why bombs are going off all over the place and there is a rumour that robots are replacing high ranking officials.

The gameplay sees you in a forced scroll where you have to beat a set number of baddies before moving on. The action is heavy and the bosses at the end of each stage are very tough. The play-feel and moves are really good and the variety of characters and hidden touches will surround you. There are plenty of options with a choice of up to five beats, listening to music, voices or sound effects, three levels of difficulty and playing with a three or six button pad.

Overall, Streets of Rage 3 is a solid follow up to Streets of Rage 2 with brilliant presentation and satisfying gameplay. If you want a hot fighter, but the streets now and go get it! - VL

SHINING FORCE 2

game type: STRATEGY
1-2 PLAYERS

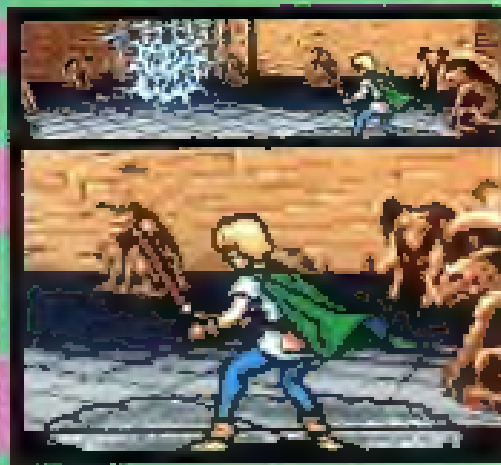

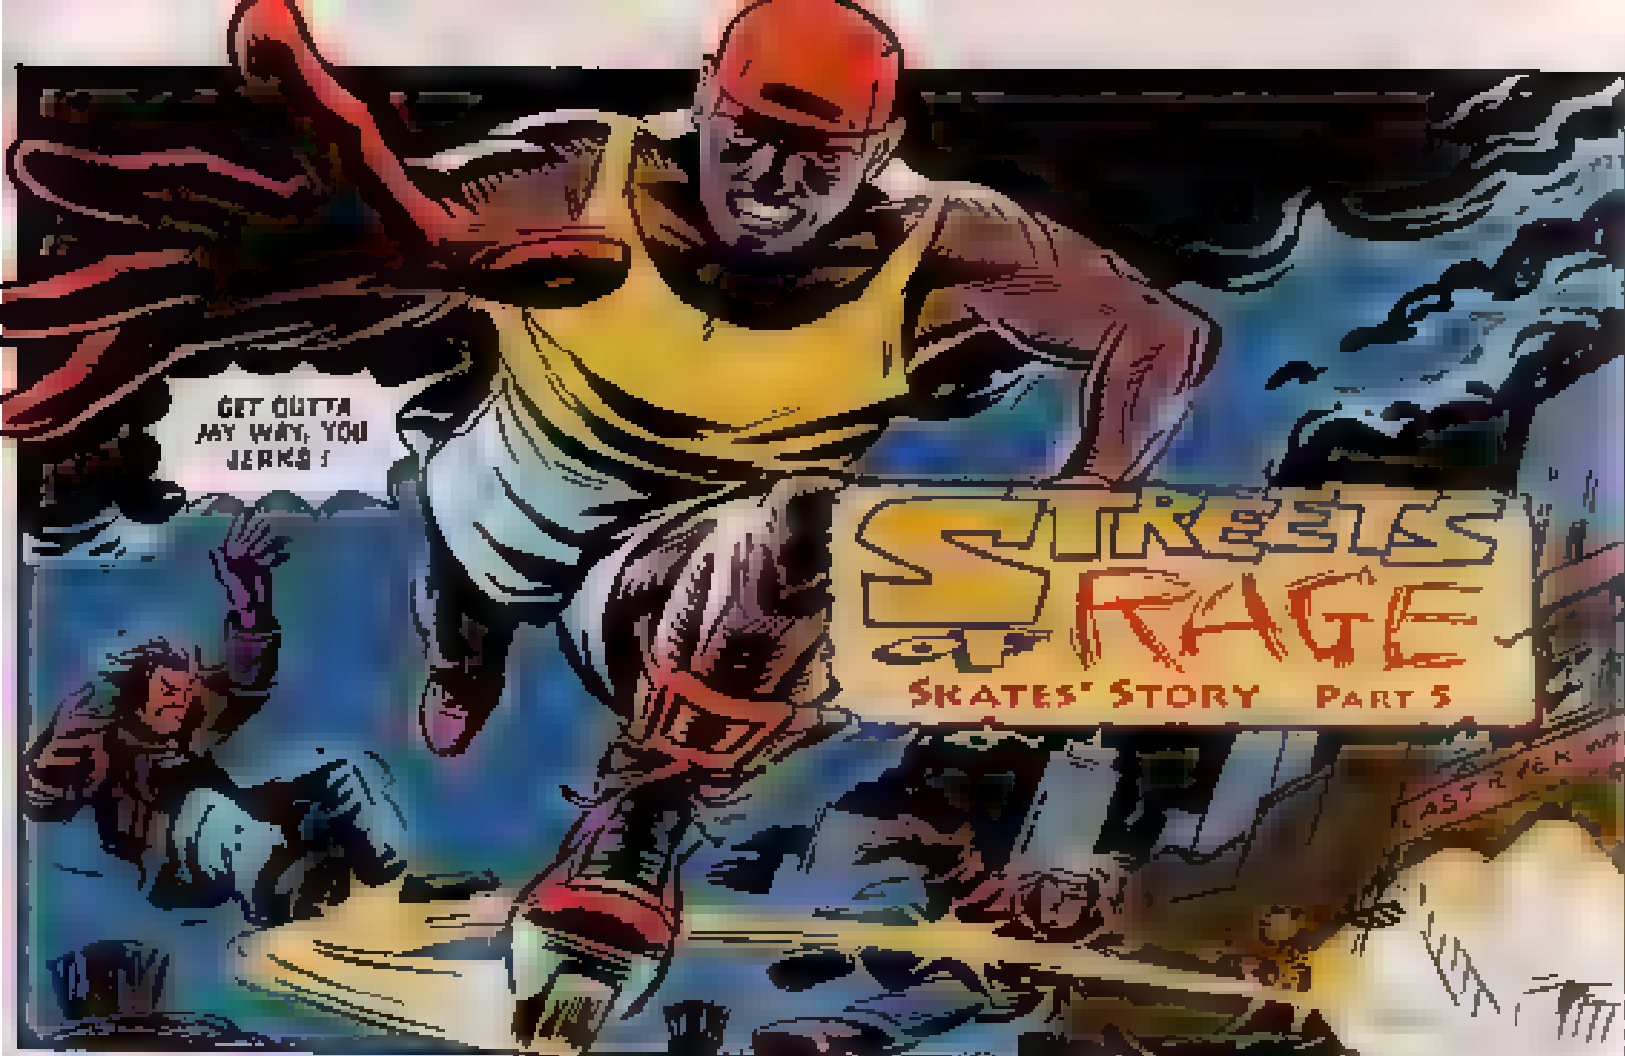

Shining Force 2 follows on from the success of Shining Force 1 released last year. It is a cross between an adventure game and a strategy game. The menus pop up very quickly and the text messages and menu switch round to the blink of an eye.

An introductory sequence explains at the beginning that the king is feeling sick due to a curse escaping from the tomb.

As controller, you get to move around huge lands in a three quarter view/top down perspective. You can talk and interact with almost everyone you meet and collect hidden items for use in the course of your quest.

Shining Force 2 has very similar interfaces to

The really striking feature is the fact that the government is not gaining the help of American physicians and nurses in overseeing the operations. Can the public ever be sure that they will clean up the mess?

SONIC SPINBALL SPREADS TO SEGA PORTABLE

The Game Gear's rule has also been shown on titles lately. However, help from the gap Sega has released the portable Sonic Baseball. This closely follows a Mega Drive version with a series of levels to get through. You can take Sonic up and flip around the portable Sonic has to find the Cross Emeralds that are brown hidden by RoboBuck and his clones. This set of Mega games should not be missed.

SUPER MARIO (AND RETTI) GETS IN GEAR

MOTOR MAG NO LEGEND MAKES HIS MARK ON THE MEGA DRIVE

Former Formula One World Champion Mario Andretti now races alongside Nigel Mansell in the US Indy Car Championships, and thanks to Electronic Arts you can join him on your Mega Drive with Mario Andretti's Racing.

Mario Andretti's Racing: a poster for better Racing Driver

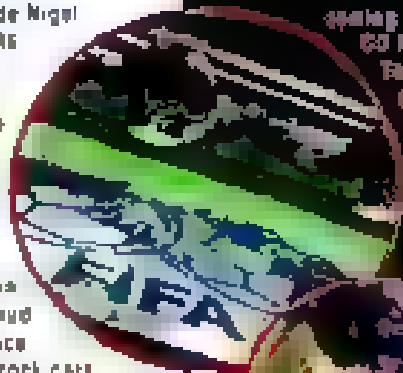

Not only do you get to take part in the Indy Car competition, you can also take sprint cars for a spin on slippery mud tracks and race high speed stock cars around punishing oval circuits. The 15 different tracks featured in Mario Andretti's Racing include ovals and street

circuits, all modelled on their real-life counterparts and each one demanding its own distinctive driving style.

The many different options include a training mode (where Mr Andretti himself tells you around a course), a choice of four displays, and four modes of play including simultaneous two-player action using a split screen.

Mario Andretti's Racing is released this month and certainly stands as though

it will provide strong competition for Sega's Virtua Racing - especially at the price of \$44.99.

TOP SCORER NOW ON CD Electronic Arts' FIFA

International Soccer is coming to the Mega-CD later this year.

The impressive football

simulation will be the same but EA are promising "phony" of bells and whistles" to accompany the action. It will also carry a price tag five pounds sterling cheaper than the original Mega Drive version - and why not? Compared to EA's sport it is expensive in cartridges is antiquated. Publishers of Mega-CD editions take note.

BETTER LATE THAN NEVER

Two delayed releases that only be of interest ... the long-awaited Mega-CD

conversion of last year's arcade best-seller Mr. Mortal Kombat will, at last, be released in June, while the American Football simulation NFL Quarterback Club for the Mega Drive (originally slated for release last year) won't be seen until November - this November.

A MORTAL IN THE MARCH

Watching legs, modified trucks speed around demanding out tracks is a popular pastime for Americans, but why watch when you can participate? Well, you can in October when Acclaim release Mortal Kombat for the Mega Drive. Acclaim states this racing simulation with a difference will capture all the "high-octane beats" of the real thing. Let's hope so - it will definitely make a change from driving another Formula One car around the same old circuit.

WRESTLING IN THE RING

Also out for release through Acclaim in October is yet another World Wrestling Federation title ... WWF Raw for the Mega Drive and Game Gear. WWF Raw is based on the Royal Rumble event, "but with loads more belt on," says Acclaim. That's all they would reveal when we spoke to them, but we do know that the Mega Drive cartridge will weigh in at a svelte 36 Megabits.

THE CAT'S BACK

Despite Acclaim's reluctance for their Baby Face character, Mr. Cat "H" jump action simply weren't strong enough to escape Sonic from his throne. Undeterred, Acclaim are now building what they reckon to be a bigger and better sequel for release this autumn. In Baby 2 the action is still platform-based (and the robot still speeds), but now there's less emphasis on running and jumping and more effort is required to find and use objects to complete the quest.

Acclaim have also enhanced the two-player mode and introduced new bonus stages - but at what length? Expecting Mega to hit targets.

MASTER SYSTEM GOES (DAFFY)

NEW TITLES QUEUE FOR AUTUMN RELEASE

Things have been quiet recently on the Master System, but now here's news of some hot new titles due for September that have brilliant graphics and great gameplay. First up is Daffy Duck in Hollywood where you have to recover valuable films for Yosemite Sam in a very tough & bit platform romper.

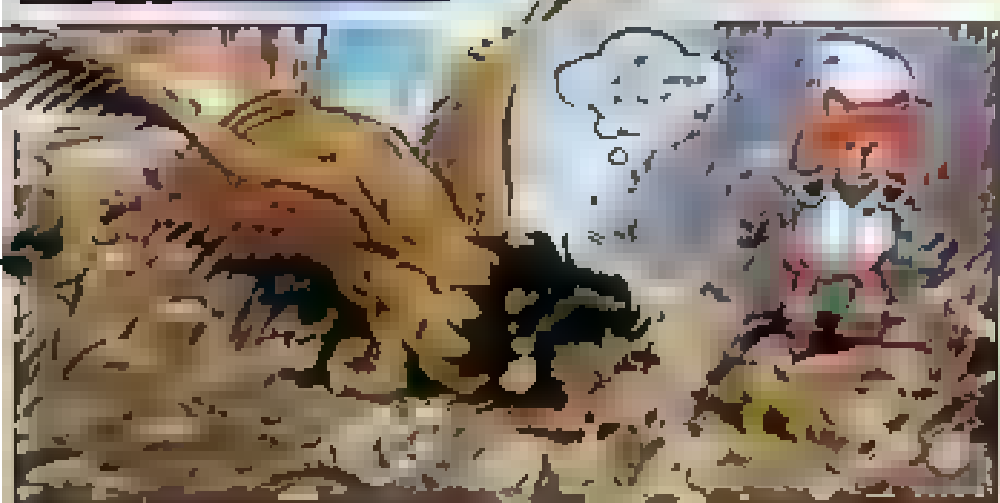

Ultimate Soccer is for all you footy fans, and is a full blown sports game with a two player option and plenty of action to tackle.

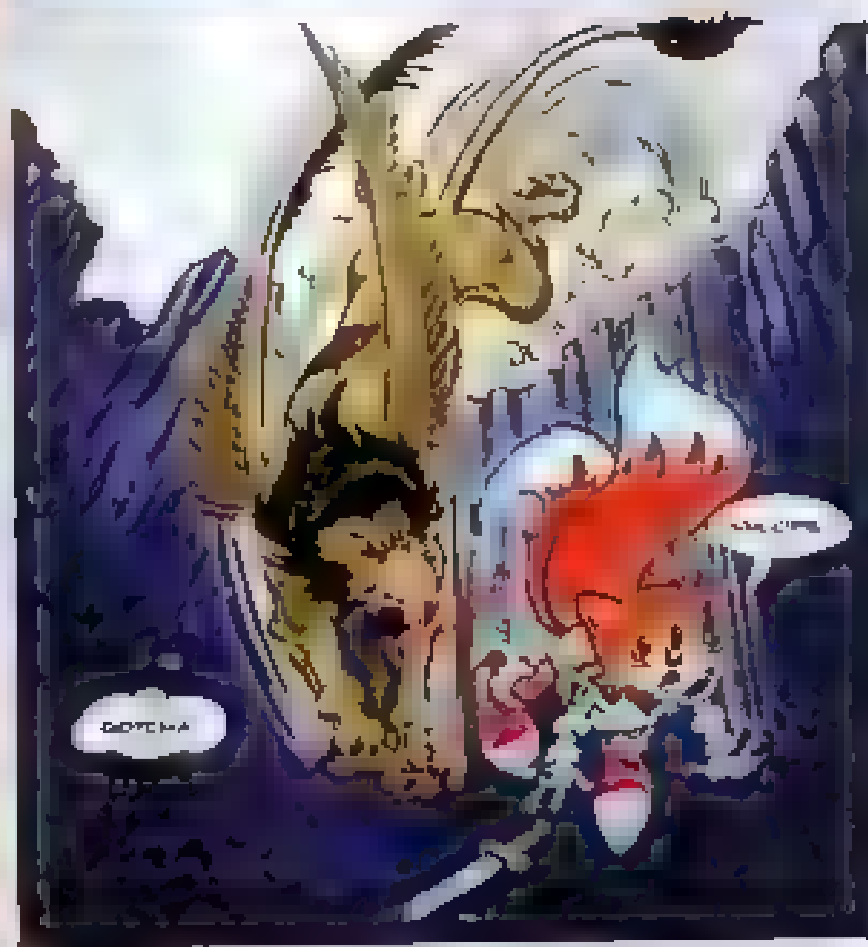

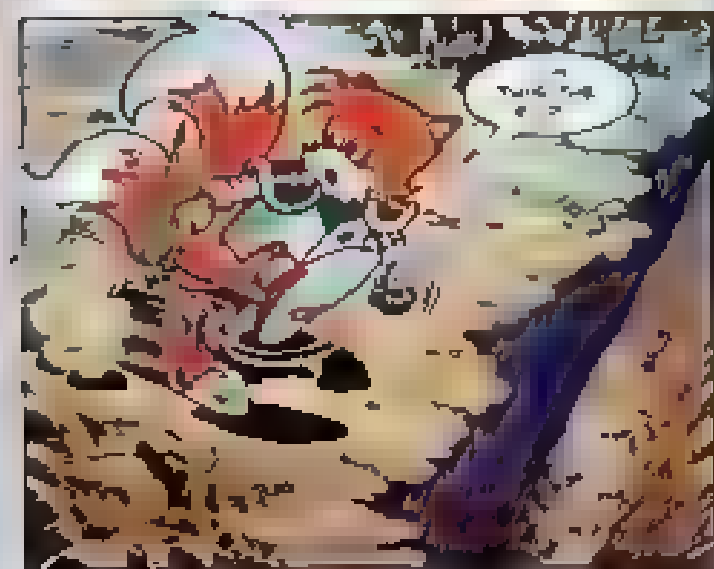

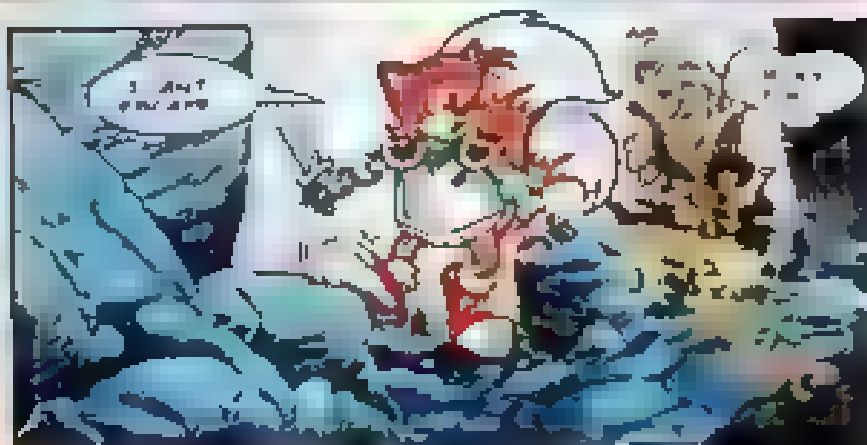

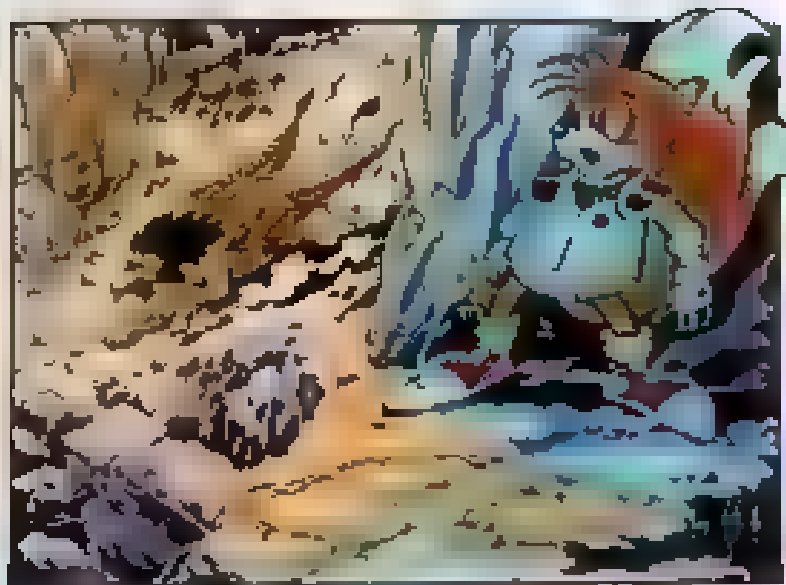

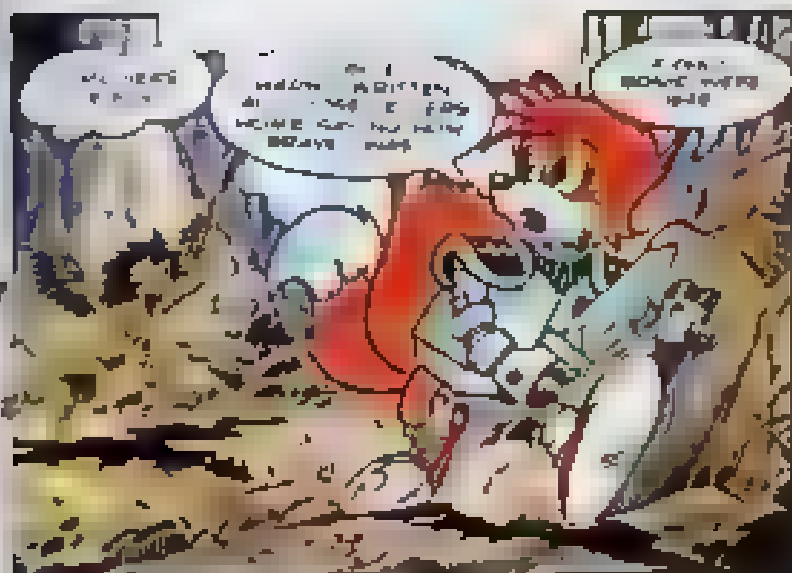

Antarc and the Great Rescue is another fine platform game. It comes from Core and has great graphics and some tough gameplay to keep you hooked.

Zone

With the World Cup soccer way, STG decided to get in on the action (see issue 28). Unfortunately, however, the originally scheduled nine-zone team are not ready yet (apart from Tails), as they all got injured in training and are currently feeling no pain at all. However, waiting on the touch-line were more super-A1 fans & just waiting to be set into action.

JUNGLE BOOK

Last issue's Q Zone featured the mega-rescue plan for the Jungle Book game. No doubt most of you managed to get through it without the need for further help. However, in case there are still some bearded boomers out there, here's a cheat script for both the Master System and Game Gear versions of Jungle Book:

Switch the game on and wait for the sparkly Walt Disney logo to appear. Once it disappears and the screen is black, press Up, Down, Up, Down, Left, Right as the keypad. You should hear a little gong to indicate that the cheat has been activated. Press Start on the menu screen and the level select will appear.

Switch the game on and wait for the menu screen to appear. While holding down 1, 2 and Start, circle the pad in a clockwise direction with your finger. You should hear a little noise to indicate the cheat has been activated. Press Start again to bring the cheat on.

Go, if only all sports games were made this way. FIFA Soccer was released last December, and the game played so popular that EA sold an 800,000 copies faster than you can say Jim's 2. It's now back, deservedly, at the top of the charts, and so for those of you who would like some help, take a look at the following passwords:

FOCUS 2

When it comes to playing video games, it's clear that gamers have a real spot for giving best caps and letters. It's no exception, initially launched for the Amiga, EA realised that the folk qualified to test it were choosing Sega over the whole new Wii, did you know? There is a very slick and rather enjoyable secret little cheat-on-up called PDS. No? You do now! Once the game begins, go to the screen where you would normally enter your name and type in PDS PLEASE. Now, press Start and you'll be treated to the hidden game.

SONIC CD

Our blue spiky hero entered a new phase when he appeared on the beloved CD system. Not only did he feature in a small cartoon, but you were also treated to a wonderful, mega-size Sonic adventure. Here are two great cheats for you:

Sum: by going to Time Attack and playing every level. After this, at the options screen you will see something called O.A. Gardens. Go to him, and you'll see Sonic's World! You can now rotate and enlarge it whilst Tails, accompanied by a few birds, fly past. You also get to choose any music from the game.

On the title screen press Up, Down, Open, Left, Right and B using the Joypad. The cheat is quite tricky to activate, so try doing it slowly and gently.

SHINOBI 2

This fancy platform action game finally made it onto Sega's very own hand-held system. SHINOBI 2 is a game that many of you have so here is a super cheat for you.

To access all of the characters, go to the password screen and enter: F3358.

When you start the game you'll have the yellow and blue crystals with all the characters.

KLADDIN

OK, we've already revealed the complete solution to this excellent Disney platformer. And yet, we know you've had the level nine cheat. Well, how about a brand new cheat that shows you a digitized picture of programmer Dave Perry, and also gives you an options screen with a whole host of changes?

Wait for the title screen to appear, then press Down, A, C, A, C, A, C, A, C, Z, B, B and B on the joystick. You would then be greeted with Dave Perry's face, along with the words: "Ah, David Perry, what is your wish?" The options screen will then appear.

B: How would you like to find a hidden extra life in the game? Well, in the Desert level, go right and all the pits and the return to the start of the level and boy presto! An extra life will then appear!

Gimme Gimme

Dear STC,

Every time Sega release a new video game system, I repeatedly ask my Dad to buy me one. Although I already have a Mega Drive, I desperately want a Mega 32, Master System and a Game Gear, plus any future consoles. My Dad did promise to buy me these, so it he's joking I'll better wait!

Jasdeep Singh Dhillon, Huddersworth, Birmingham, MD owner.
Sonic Water Fun Game Winner.

Well Jasdeep, I think the next thing on your list should be a course on how not to be greedy.

No Man's Land

Dear STC,

It seems to me that if Doctor Robotnik plans to rule the world by killing everyone with scientific death rays etc., there won't be anyone left to rule dear!

Kylie Munns, Ramsey, Hants, MD owner.
Sonic Water Fun Game Winner.

Sounds like a sensible observation. Kawaii! (I really Robotnik types of the home world adopted this outlook.

On The Buses

Dear STC,

I would like to inform other STC readers that the last time I visited the Sega Bus I won a cap, stickers and posters. If the bus is in your area this year I strongly advise you to check it out - pronto!

Lee Chapman, Leicester, MD owner.
Sonic Water Fun Game Winner.

Ever thought of working in PR when you're older, Lee (or becoming a footballer?). See this issue's Control Zone for the Sega Buses tour dates; forthcoming dates will be listed in future issues of STC.

A Jolly Tail

Adrian Williams, Fortring, Northants.
Sonic Water Fun Game Winner.

Off Yer Ed

Dear STC,

It was an outrage! What am I talking about? You saw him first in STC 4, and after that you hoped you'd never see him again. But Mr. Ed Hillary returned, determined to ruin a Sonic strip once and for all, he crews into a four year old - even I could have done better. Surely you could have replaced 'you know who' with Ferran Rodriguez or Woodrow Phoenix? Richard Eisen is a genius, which is probably why you use him so much. Otherwise STC is a brilliant comic.

Sarah Ryan, Worsley, Manchester, MD owner.
Sonic Water Fun Game Winner.

You must know some incredibly capable toddlers. Sarah (Ferran/Woodrow/Richard?).
